

### **REMARKS**

By this Amendment the specification has been amended to include topic headings and to refer to the additional figures proposed in the concurrently filed Letter Re Drawings, and the claims have been revised to better define the invention and distinguish over the prior art. Entry is requested.

The inventor attaches a supplemental page 9 for this application containing an abstract of the disclosure.

In the outstanding Official Action the examiner has objected to the drawings as failing to depict numerous claimed features.

By the concurrently filed Letter Re Drawings additional figures are submitted to illustrate the claimed features. Nothing in these figures can be said to represent new matter. As such, the examiner's objection should be withdrawn.

The examiner has rejected claims 1, 2, 5-21, 23-25 and 27 under 35 U.S.C. 102(b) as being anticipated by Bloch.

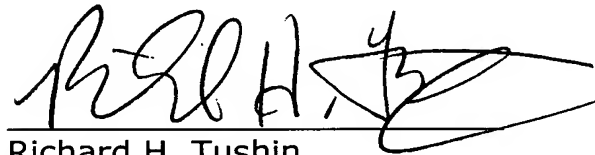

However, by the present Amendment claim 1 has been amended to include the features of claims 2 and 3. As such, it is believed that the examiner's prior art rejection should be withdrawn.

Favorable reevaluation is requested.

Respectfully submitted,

DYKEMA GOSSETT PLLC
